Designer and architect Mario Bellini works together with B&B Italia founder Piero Ambrogio Busnelli on the La Grande Muraglia Outdoor collection. The outdoor furniture series is realized by NEUTRA, a marble and stone expert and it was all presented during this year's Milan Design Week. It has ethereal structures that feature natural stone placed naturally into the forms. It was led by the creative direction of Migliore+Servetto with a focus on lasting through time.

The silver travertine silhouette was selected for the collection comprised of a three-seater sofa, a two-seater sofa, a chaise lounge, and an armchair. Since it is developed for the outdoors, the upholstery can be removed – this is also made using waterproof polyurethane with resin-coated fiber and lined with water-repellent polyester. The color options include "Zaffiro, Matcha, Corallo, Terracotta, and Tabacco."
